

KYC SERVICES

Alter Domus offers complete and tailor-made solutions to your KYC outsourcing plans

Alter Domus is focused on delivering a vertically integrated service for our clients, and KYC is the foundation of all our relationships.

In recognition of the increasing number of clients who use our services in multiple jurisdictions, we have developed a global on-boarding process which avoids duplication in KYC document requests, **saving our clients substantial time and effort.**

The global on-boarding process implies that having accepted a client or investor in one of our jurisdictions, other Alter Domus jurisdictions will only apply minimal local KYC checks when on-boarding the same client or investor.

WE OFFER YOU OUR EXPERIENCE OF KYC SERVICES

Alter Domus has been successfully carrying out KYC due diligence for our clients for over 13 years. With more than 25 FTE involved in this process, and being regulated in 11 countries, Alter Domus provides fund managers with KYC collection, ongoing monitoring as well as the experience gained from our proven track record across an international footprint.

Our dedicated team is constantly monitoring laws, circulars and sanction lists in constant evolution so that our clients don't have to, allowing them to concentrate on their core business.

From our Client Acceptance Committee and through the scope of each engagement, we ensure delivery of the highest quality work through systematic controls and reviews and in compliance with agreed timetables. Our integrated personalised approach aims to simplify and minimise exchanges between investors, clients and our KYC team. Our process is designed to be flexible enough so that it can be adapted to fit your individual circumstances.

Over 26,000 Alter Domus investors and UBOs are screened on a daily basis through Pythagoras which provides a "white label" facility to eliminate false positives. Daily screening enables us to manage any "hits" as they arise and therefore reduce the risk of delaying transactions at critical times.
