

ALTER DOMUS CONNECT TECHNICAL BRIEFING

Alter Domus has developed Alter Domus Connect in response to our clients' increasing demand for transparency and risk management solutions. We also designed our client portal to significantly simplify our clients' operations as well as our interactions with them.

This highly performing technology platform was developed in-house in order to meet our clients' specific needs and to be as reliable, secure and resilient as possible. It has proved its efficiency for a number of years now and is being continuously improved through regular upgrades which are often based on our clients' feedback.

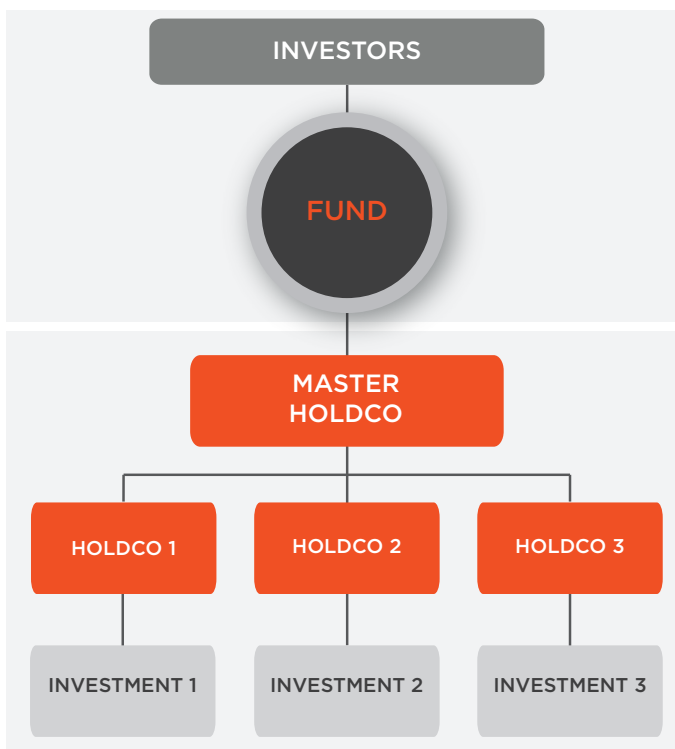

We look forward to you contacting us to plan a demo.

In this document, we aim to summarise key features, technical details and answers to frequently asked questions.

WHAT IS ALTER DOMUS CONNECT ?

Alter Domus Connect is a web tool that allows you to monitor the activity of the entities Alter Domus administers for you. It gives you and relevant third parties a direct access to your entities' records (data, documents and dashboard) in an interactive manner.

Our tool supports Alter Domus' **vertically integrated approach** and offers solutions across the entire value chain of investment structures, from fund level down to local Special Purpose Vehicles. Furthermore Alter Domus Connect is seamlessly linked to our fund management platform, providing investors and fund managers access to their fund notices, reports and other general communications.

- Virtual data room for fund launch
- Access for GPs to corporate data, dashboard and documents
- Access for investors to all their documentation (investors portal)

- Access for client's operational team to corporate data, dashboard and documents (internationally)
- Access for third parties to documents
- Dedicated room for interaction (collaboration folders)
- Virtual data room for sale of property
