

# CAPITAL MARKETS

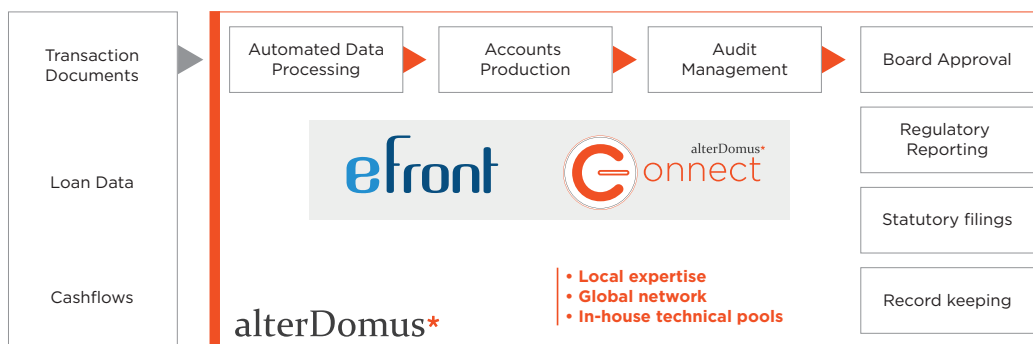

We understand the challenges facing arrangers, originators and investment managers alike and through our working relationships with leading advisers, we work closely to provide key solutions from issuance through to maturity.

Our clients increasingly utilise structured finance solutions as part of their investment and funding solutions which has led to us expanding specialist teams in key European structured finance jurisdictions. This ensures we can provide you with dedicated support and expertise where you need it, catering for capital markets and privately placed securitisation transactions across all major asset classes, as well as asset finance/leasing transactions.

With a constantly developing regulatory landscape, we understand the challenges which can arise in closing new transactions and in managing subsequent requirements for SPVs in structured finance transactions. We constantly monitor and are flexible enough to adapt to these changes.

## INTEGRATED SOLUTIONS

Our process driven approach utilises industry leading software and ensures timely, high quality deliverables.

### BESPOKE INVESTMENT STRUCTURES

The introduction and continuous enhancement of securitisation legislation in various locations provides robust funding and investment solutions for investors, particularly in debt, private equity and infrastructure.

We provide a vertically integrated solution for such structures, including fund administration, SPV management and in the case of debt investments, loan administration.

### ASSET FINANCE

We support leading investors, lessors and operators in aviation, shipping and related assets in respect of their financing and leasing operations. Structures managed by Alter Domus include lease in-lease out SPCs, operating lease platforms and fund structures.

## WHAT WE DO FOR CAPITAL MARKETS TRANSACTIONS
