

# IFRS

## WHAT CAN YOU GAIN FROM USING IFRS?

The recent economic crisis further increased regulatory pressure and the use of a single set of standards to allow comparability of financial reporting.

The use of International Financial Reporting Standards (IFRS) is the solution.

IFRS has evolved into a global benchmark with many countries having already adopted it into their local regulations and more are still in the process of converging with IFRS.

This on-going convergence will result in significant changes in financial reporting throughout the world.
