What is this product?

Туре

- This product is a class of share of the Sub-Fund and is denominated in EUR. The Fund Group SICAV is an open ended investment company with a variable capital and qualifies as an Undertaking for Collective Investment in Transferable Securities ("UCITS"), subject to Part I of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment ("Investment Fund Law"), transposing Directive 2009/65/EC related to UCITS.
- As an investment fund, the return of the Sub-Fund depends on the performance of its underlying assets.

Objectives

Investment objective:

■ The Sub-Fund's objective is to achieve capital gains through strategic allocation of its assets in a global diversified income-generating portfolio. The portfolio is structured with a mix of fixed income products and alternative income asset classes, such as Master Limited Partnerships Dividend generating Equities and Real Estate Investment Trusts. Through a dynamic investment approach, the Sub-Fund strategically invests in investment companies with robust balance sheets and sustainable earnings patterns that will deliver a performance over and above an equivalent static portfolio. In addition, a flexible allocation method is used to achieve consistent risk adjusted returns. The Sub-Fund will offer investors the possibility to invest in a portfolio mainly composed of fixed income products, such as Bonds, Convertible Bonds Subordinated Debts, Hybrids, Preferred Securities and Contingent Convertible Bonds. The Sub-Fund may also invest in Undertaking for Collective Investments in Transferabe Securities under the EC Directive 2009/65 of 13 July 2009, and Exchange Traded Funds ("ETFs").

Investment policy:

■ The Sub-Fund may be fully invested in fixed income instruments within the limits as defined in the Law, gaining exposure in carefully selecting investments in companies based on the following characteristics:

- their financial stability, cash flow and franchise. The Sub-Fund seeks to determine the investment's income producing sustainability over time;

- their geographical exposure and sector of business. The Sub-Fund will analyse the geographical environment as well as the activity sector of their operations;

- regulatory factors that can or could impact their activity;

- historical trends and the specifics of their business. The Sub-Fund will analyse profit performance trends, market capitalisation, share ownership to determine the potential business strengths and weaknesses.

- The weighting of each type of securities in the portfolio of the Sub-Fund will depend on the prevailing market opportunities and foreseen evolution of these targeted markets or companies. Cash and cash equivalents may be held on an ancillary basis. From time to time, depending on the conditions of financial markets, the Sub-Fund may be substantially disinvested.
- The share class is actively managed in reference to the benchmark Barclays US Agg Credit Total Return Index Value Hedged EUR (LUCRTREH) ("the Benchmark"). The investment manager will generally invest in the securities universe to which the benchmark refers and may deviate to a significant extent. The share class' performance can be compared to this Benchmark.
- The Sub-Fund's underlying assets does not take into account the EU criteria for environmentally sustainable economic activities in the meaning of the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020.
- Given the above investment objective and policy and the risk and reward profile of the product, the recommended holding period is 3 years.

Redemption and Dealing: The shares of the Sub-Fund may be redeemed on demand on a daily basis before 3 p.m. Luxembourg time on the business day preceding the valuation day.

Distribution Policy: This product does not pay dividends. Income generated by the Sub-Fund is reinvested and included in the value of your share.

Intended Investor

The share class I2 is dedicated to institutional investors and is not suitable for investors who plan to withdraw their money within 3 years. The minimum initial investment is EUR 1,000,000.

What are the risks and what could I get in return?

The risk indicator assumes you keep the product for 3 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of Alter Domus Management Company S.A. to pay you.

Not all risks affecting the Sub-Fund are adequately captured by the summary risk indicator.

This rating does not take into account other risk factors which should be considered before investing, including credit risk, liquidity risk, price risk, default risk.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If Alter Domus Management Company S.A. is not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at www.alterdomus.com.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown are illustrations using the worst, average and best performances of the product over the last 10 years, by identifying, depending on the performance scenarios and as defined in Regulation (EU) 2021/2268, all overlapping sub-intervals individually (i) equal in length to the recommended holding period which start or end in each month which are contained within that period of 10 years or (ii) equal or shorter in length to the recommended holding period, but equal to or longer than 1 year, which end at the end of that period of 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 August 2021 and 16 January 2023.

Moderate: this type of scenario occurred for an investment between 29 June 2015 and 29 June 2018.

Favourable: this type of scenario occurred for an investment between 31 October 2014 and 31 October 2017.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed (i) in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario and (ii) \leq 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 3 years (recommended holding period)
Total Costs	€ 511	€ 1,000
Annual cost impact*	5.1%	3.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.7% before costs and 1.6% after costs.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

The RHP has been defined by taking account the above investment policy and risk and reward profile. You should be prepared to stay invested for at least 3 years. However, you can redeem your investment without penalty prior to the end of the RHP or hold the investment longer. Redemptions of shares will be effected each valuation day provided that the redemption notice has been received no later than 3:00 p.m. Luxembourg time on the business day preceding the valuation day, which is each business day. Applications received after that time will be considered for the following valuation day and processed on the next valuation day. Any cashing-in before the end of the recommended holding period may have a negative consequence on your investment.
